Surat, India

### TECHNICAL SKILLS

- C /C++
- DSA
- Html
- JavaScript
- Css
- MySql
- Sass
- MongoDB
- Tailwind Css
- Express Js
- Bootstrap
- Node Js
- React Js
- TypeScript

### EDUCATION

#### SKILLQODE INSTITUTE

2023-2024

- Full-Stack Developer

#### DR. BABASAHEB AMBEDKAR OPEN UNIVERSITY

2023

- Bsc.IT

### LANGUAGES

English

Hindi

Gujrati

### PROFILE

Fresher MERN Stack Developer, knowledgeable in designing, developing, and maintaining web applications.

- Proficient in Frontend technologies (HTML, CSS, Tailwind) and backend languages (Nodejs, JavaScript, TypeScript), with expertise in web frameworks like React.
- Adept at database management using MySQL and MongoDB.
- Strong communicator and team player, committed to delivering high-quality solutions on time.

### WORK EXPERIENCE

#### • FRESHER

### SOFT SKILLS

- Quick Learner
- Good Communication
- Team Work
- Time Management

### PROJECT

- [FurnitureApp \(NodeJs\)](#)
- [PortFolio\(TailWind\)](#) live
- [JumysIceCream\(ReactJs\)](#)

### INTEREST

- Coding
- Reading
- Listen Song

# PROJECT

## • FurnitureApp (NodeJs)

The Furniture Store App is a backend application built with Node.js and Express.js to manage an e-commerce furniture store. It allows users to browse, search, and purchase furniture.

- User Authentication & Authorization:
  - Secure registration and login using JWT.
- Product Management:
  - Admins can manage furniture products (CRUD), with details like name, price, dimensions, material, and stock.
- Order Management:
  - Users can add products to a cart and place orders. Admins can manage customer orders.
- API Endpoints:
  - RESTful APIs for product listing, user management, and order processing.
- Database:
  - MongoDB (or another database) with Mongoose (or Sequelize) for modeling product, user, and order data.

## • JumysIceCream (Reactjs)

The Jumys Ice Cream Web App is a responsive React.js platform that offers a seamless experience for browsing and ordering artisanal ice cream. Key features include:

- Menu & Custom Orders:
  - Users can explore flavors, customize orders with toppings, and update.
- User Authentication:
  - Integrated sign-in and sign-up features using React and Axios for secure user management.
- Cart & Checkout:
  - A seamless shopping cart functionality, where users can add multiple items, adjust quantities, and proceed to checkout with a simple and clear interface.
- State Management:
  - Redux or Context API, for handling global state like user sessions, cart details, and UI preferences.
- Responsive Design:
  - The web app is fully responsive, providing an optimized experience across all devices, from mobile phones to desktop computers.

## • Portfolio

A portfolio website is essential for showcasing skills, projects, and experience to potential clients or employers. Building one with Tailwind HTML for a resume requires a visually appealing.

- Key Sections of a Portfolio Website
- About Me:
  - A brief introduction of who you are and what you do.
- Skills:
  - Highlight key technologies and tools you are proficient in.
- Projects:
  - Showcase your best work, including descriptions and links.
- Achievements:
  - List certifications, awards, or accolades.
- Contact Information:
  - Make it easy for potential clients or employers to reach you.
